Greetings,

Nadinne

Hej, my name is Maike, I`m 19 years old and I am an EVS in the Fritids- and Ungdomsklub in Hjallerup. I`m from Kassel in Germany and in summer 2017 I graduated from school ( A-level). In my free time I like to read, go out with my friends and here in Denmark I started boxing, which I like a lot!

I`m doing this voluntary work because I want to do something practical before studying at university. I am not sure yet what I want to study but most likely in the direction of social work. Therefore, my year as an volunteer in denmark is a great opportunity to get to know the soical field in a practical way. This voluntary work is my first time being in Denmark and I think it`s a nice, open minded country.

I like working in Hjallerup a lot, due to the amazing people I get to know there and the great and funny work. The nicest part is that you can decide what you want to do, together with the kids. They love to teach you new games and danish and show you their creativity by cutting, painting and building in the "kreativ rum".

I think being an EVS in Denmark is a great experience nobody should miss!
