

Lena

Hej, my name is Lena I am 18 years old and from a small village next to Nuremberg in Germany. My interest in Scandinavian countries and the culture arose when I was on a trip with my family 3 years ago traveling through Norway and Denmark. Because of this and the interest in working with children and youngsters, I decided to apply for the ESC. After graduating gymnasium this year I wanted to engage voluntarily in Scandinavia. I am really happy that I found such a cool project in Denmark. So I am working at the Fritids- og Ungdomsklub in Dronninglund.

I like to spend my leisure time doing sports like trampoline and handball, playing piano, meeting friends, and traveling to new places. In this project, I want to learn a lot about Danish culture and language. This project is the first time that I am far away from my family and my home for a longer time so I think that I will learn a lot about independence and responsibility.

I am really looking forward to all the new great experiences here in Denmark over the next eleven months.
