

My name is Elisa Bonetti, I'm eighteen years old and I'm from Italy. I have the High school "G.M. Colombini" diploma in Human Sciences and my personal attitudes have oriented me to join this international volunteering project. I have been employed as an educator in educational centres and I have often tutored kids from first to fifth grade. I am interested in training and foreign languages and my passion for intercultural issues has had a strong impact on both my school choice and extra-scholastic activities. I would describe myself as cheerful, determined and careful. I care about others' needs and I adapt easily to different situations, therefore I'm always open to new experiences. I like reading and taking pictures with analogue cameras. I also like writing, it helps me to clarify my ideas or let off steam. I love animals, especially dogs, although unfortunately I've never had the opportunity to have one.

My name is Paula and I'm from Bonn, Germany (and because nobody knows that city: it is the city where Haribo is from ;)). I just finished my A-level in spring and after living my whole life in the same town I thought about spending one year abroad. As I love working with children and always wanted to visit Denmark I was really happy finding this project.

In my freetime I normally do a lot of sports. I do jump rope on a competitive level, go swimming and love to do some gymnastics wherever I am. Besides that I love to go for a walk in the nature or take my muncycle for a little ride.

I also really love making music. I play the piano, clarinet and sing

in choirs since I was very young. Whenever I have some spare time I read and write my own fictional texts.

I am looking forward to have a great time with the children and I am curious to learn Danish and get to know the culture of this country.
