

My name is Ismail Kaya. I came from Adana in Turkey. My father is a farmer, my mother is a house wife. I have two sisters. The big one is psychology student at the Samsun University and my other sister is a high school student.

I have a band called Pesband in my country we are playing covers and our own songs. I have been playing guitar for a long time and want to play harmonika as well. Reading, watching films and training are my hobbies. I listen to music and write something when I feel bad or go to my father's farm to do tiring jobs to lift my spirit.

I decided to be a volunteer when it engaged to my wishes of helping people... It's a big opportunity that Denmark has a different culture, language and climate for my personal development. I have lived alone in my country too along university years but there are my family and friends if a problem occurs there but here I am by myself as an individual I hope I will have an expanded vision after living here for a year through the experiences.
